

wire3

keeping track of technology

Fleet Management

Maximise your assets, control your costs

The Wire3 system enables Day Aggregates to deliver the service to our customers that have made us an industry leader. The range of functionality that the Wire3 system offers us provides us with control of our fleet and assists in the management of the drivers.

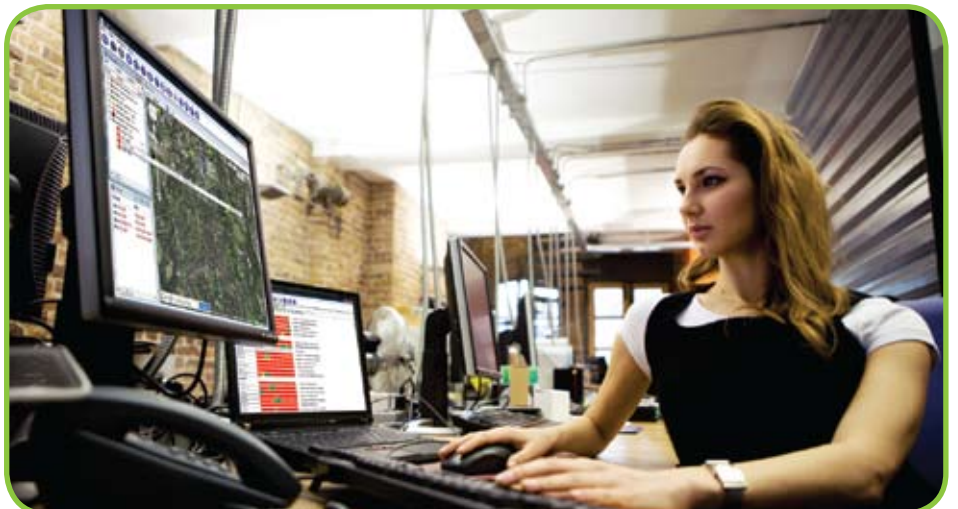

Best of all is the peace of mind that the system gives Day Aggregates; customers are always impressed with the accuracy of our information and that in itself makes the tracking of the fleet an integral part of our strategy.

Dominic Day
Managing Director, Day Aggregates.

For all fleet operators, vehicle and driver management is vital for the smooth operation and profitability of the business, Wire3 is an award winning Fleet Management solution that will improve efficiencies and return reduced costs across your fleet.
